

IBD BENCHMARKING TOOL 2019/2020 RESULTS OVERVIEW

ADDENBROOKES HOSPITAL

www.ibduk.org

This report shows results from the IBD Benchmarking Tool 2019/2020, a new way to assess how well services across the UK are providing care against the IBD Standards 2019. It includes information from a self-assessment completed by the IBD Team and from an IBD Patient Survey completed by 121 patients who use this service. This report has been produced by IBD UK, a partnership of patient and professional organisations working together for everyone affected by IBD.

Key

IBD Patient Survey 2019

IBD Service Self-Assessment 2019/2020

The Service in Numbers

Covers a population of

500,000

Supports

3,800

adult IBD patients

Of which

60

were diagnosed in the past 12 months

The IBD Team

The IBD Standards define the ideal make-up of the IBD team in terms of full-time roles. Shown below are the actual numbers for this IBD team, with ideal numbers based on population size in brackets beneath.

Quality of Care

Overall, how would you rate the quality of your Crohn's or Colitis care over the last 12 months? [116 responses for this service]

Rated as "Excellent" or "Very good" by 57% of patients

Rated as "Fair" or "Poor" by 22% of patients

Rated as "Good" by 21% of patients

We will meet as a team and review these findings and how they relate to our ongoing service development. We will discuss the findings with involved parties including our newly formed patient liaison group or patient panel.
